

International Symposium of Brain/MINDS

- From Structure to Function -

ISBM2019

January 29th, 2019 9:20-18:15

Ito Hall, The University of Tokyo, Hongo 3-chome

**FREE
ADMISSION**

Registration
is
required

PROGRAM

Plenary Speakers

- 09:25 **Hideyuki Okano** (Keio University, RIKEN CBS)
Brain Mapping and Disease Modeling using Common Marmosets
- 10:05 **Walter J. Koroshetz** (NINDS, NIH, Brain Initiative, USA)
State of NIH BRAIN Initiative.
- 10:45 **Katrin Amunts** (Human Brain Project, University of Düsseldorf)
Human Brain Project – concepts, computing and collaboration
- 11:25 **Hongkui Zeng** (Allen Institute for Brain Science, USA)
Mapping cell types and circuits in the mouse brain
- 12:05 **Mu-ming Poo** (China Brain Project, Chinese Academy of Science)
Macaque models for biomedical research

Guest Workshop Speakers

14:35-18:15

Marcello Rosa (Monash University), **Mark Schnitzer** (Stanford University),
J. Hata (RIKEN), **S. Ishii** (Kyoto University), **K. Ohki** (The University of Tokyo),
A. Miyawaki (RIKEN), **E. Sasaki** (CIEA), **T. Minamimoto** (QST), **T. Takahashi** (YCU)

Social gathering

18:30 Ito International Research Center

Registration Deadline: December 25, 2018
